If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely set relief in five minutes. In mouth and stomach headache, you can surely get relief in five minutes. Ask 'your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constination.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach county agent work. Purple Fincher Seen.

There are a few purple finchers in tiffs section. They are a rare bird in winter, and have been reported by Mrs. John Bromley and Dr. G. H. Jennings. The bird looks like a sparrow dipped in raspberry juice, and it's coloring is irridescent in the sunlight—a beautiful sight against the snowy background. A bird-book says that whoever named the bird purple finch must have been color-blind, for it is raspberry color rather than purple.
